# ABOUT ME

---

Giuliano Gadaldi, known professionally as Julian Duca. In 1997 I organized my very first event and instantly fell in love with this world: since then you can always find me behind the DJ console.

From the very beginning I gained experience with every type of event, working with audiences of different ages and musical tastes.

Over the years I have built strong professional expertise as a resident DJ in some of the most important venues in the province of Sondrio.

I will put my passion and professionalism at your service to create the perfect musical atmosphere for the most beautiful day of your life.

# KNOW-HOW

Through years of experience working closely with couples, I have identified the key elements to plan in order to offer the perfect formula for your wedding.

My mission is to transform the traditional approach to music and entertainment in the wedding world: every detail will be designed together with the couple to create a fully personalized event, where your wishes and needs are always at the center of the day.

By choosing my services, nothing will be left to chance: from cutting-edge setups to carefully designed installations that blend harmoniously with the aesthetics of your venue.

# PUT MUSIC AT THE HEART OF YOUR WEDDING

In the months leading up to your wedding, I will guide you step by step in selecting the soundtrack for your special day: from the ceremony to your first dance as newlyweds and the cake cutting, your favorite songs will accompany every unforgettable moment.

# MY SETUP

# PROJECT JODY

Elegance in design meets the world of musical entertainment, giving life to a unique concept: Jody DJ Booth.

A DJ desk with soft and refined shapes, created by designer Giordano Buzzetti in collaboration with Zibe Design, a leading company in the Luxury, Hospitality and Nautical sectors.

A concept that combines creativity, functionality and aesthetics: all cables are hidden inside the structure, giving the DJ booth a clean, fluid and elegant appearance.

Its exclusive features and pure design make the Jody DJ Booth a harmonious element in any event, enhancing the visual setup of your wedding.

# SERVICE CERIMONIA

---

On the day that celebrates your love, the ceremony is undoubtedly the most meaningful moment, marking your union forever. Attention to detail during this phase is essential.

Your favorite songs will accompany the emotional exchange of vows, which is why we provide a professional audio system complete with microphones, suitable for any type of venue, ensuring that every guest can clearly follow each moment of the ceremony.

Our service includes professional audio speakers as well as wireless speakers that do not require a power supply, making the system completely independent from nearby electrical outlets.

# SPARKULAR

If you are looking for a magical touch to make an emotional moment such as the cake cutting even more unforgettable, the answer is simple: sparkular fountains.

The spectacular sparkling effect will leave your guests amazed and, captured by photographers, will create a fairy-tale atmosphere during the most iconic moments of the reception.

Although visually similar to fireworks, sparkular fountains are cold spark effects and can therefore be used safely indoors.

With heights reaching up to 6 meters, they create a truly unique show.

# SPARKULAR

# FIREWORK SHOWS

An exciting display of lights and colors to celebrate your special day: fireworks remain a timeless classic to create unforgettable memories for you and your guests.

A custom-designed fireworks show can accompany the key moments of your wedding, from the couple's grand entrance to the cake cutting. Create unforgettable memories!

# DANCING ON THE CLOUDS

There is no doubt: the first dance as newlyweds is the most romantic moment of the day.

This intimate and emotional experience can take on new magic thanks to our Low Fog Machine.

A layer of low-lying fog (approximately 30 cm high) will accompany your first dance, creating a dreamy and romantic atmosphere enhanced by beautiful lighting effects.

It will feel like dancing on a cloud.
